

David Erenfeld

Full Stack Developer

👤 Profile

Full-stack developer with expertise in building applications using **React**, **Node.js**, **MongoDB**, and **PostgreSQL**. Seeking a full-time role to apply and grow my skills in tackling complex challenges.

★ Projects

Travel Easily – Full Stack Travel Planning Platform
(React/TypeScript, Node.js/Express/Socket.IO, PostgreSQL, Redis)

<https://travel-easily-app.netlify.app/>

- Developed a feature-rich platform for planning and sharing travel itineraries, with real-time updates.
- Built a secure server-side environment with **Node.js**, **Express**, and **Redis** caching for optimized **Google API** data retrieval.
- Integrated **Google OAuth** for seamless authentication and deployed the client-side on **Netlify** and server-side on **Heroku**.

Code Mentor Platform – Real-Time Code Collaboration (React, Node.js, Socket. IO, MongoDB).

<https://codementor-daviderenfeld.netlify.app/>

- Created a live code-sharing platform supporting mentor-student interactions in real-time.
- Led full-stack development, implementing **Socket.IO** for dynamic updates and ensuring secure, responsive user engagement.

🎓 Education

B.Sc. in Computer Science, College of Management Academic Studies

January 2021 — February 2025

Udemy: JavaScript, Web Development Bootcamp, HTML/CSS

🤝 Volunteering

Civil service 2017

— 2019

Worked directly with at-risk youth, providing guidance and support as part of civil service. Developed interpersonal skills, patience, and empathy while addressing challenges faced by the youth community.
